ABSTRACT

Data submitted by administrators of individual schools and school districts and by county school superintendents in Arizona are presented in this survey. The target population of this 1971-72 study included public school pupils in kindergarten through grade 12, certified employees, and noncertified employees. The 6 racial and ethnic categories identified were as follows: (1) Spanish surnamed, (2) other white, (3) Negro, (4) Oriental, (5) American Indian, and (6) other nonwhite. This system was utilized in categorizing pupils as well as certified and noncertified employees. Information about the students was tabulated according to grade level and a district summary was presented for each county in the survey. Information about the employees was tabulated according to job category, and a district summary was presented for each county. A synopsis of racial-ethnic distribution was given for the entire survey population. (PS)

The 1971-72 Racial-Ethnic Survey of Public School Pupils and Employees was the second statewide study of this type conducted by the Division of Equal Educational Opportunities, Arizona Department of Education.

The final presentation of its report provides clear and concise information concerning the racial composition of the pupils and employees in the public schools of the state.

Data contained in the 1971-72 report will be utilized by the Department of Education to alleviate conditions of the educational system which may have created deficiencies or inequities of educational opportunities.

These findings will be helpful in the formulation of state and local policy decisions directed to the attainment of the equality of educational opportunities for each and every pupil.

Introduction

PURPOSE AND SCOPE

PURPOSE AND SCOPE

The 1971-72 Racial-Ethnic Survey of pupils and employees in Arizona's public schools was authorized by the Superintendent of Public Instruction and the State Board of Education.

This survey reveals data submitted by administrators of individual schools, school districts, and by county school superintendents. The target population of this study included public school pupils in kindergarten through grade twelve, as well as noncertified and certified employees.

Data presented will be reference sources in the development, implementation and evaluation of reports and projects relating to equal educational opportunities.

SURVEY BACKGROUND

This report is the second statewide survey to obtain racial and ethnic data conducted by the Equal Educational Opportunities Division. Data compiled in the previous survey were utilized by school districts, of the Arizona Department of Education, federal, state and municipal agencies, and various community groups.

PROCEDURES

Pupil and noncertified employee data were compiled from one page report forms which were distributed to district and county school superintendents by the Equal Educational Opportunities Division.

Certified employee data were furnished by the Planning and Evaluation Division, State Department of Education, which had conducted its separate survey earlier.

EXTENT OF COVERAGE

Seven of the state's districts did not participate in the survey. A total of 283 districts participated which included 468,927 pupils and 37,722 employees (17,212 non-certified and 20,510 certified). Nonparticipating district enrollment was less than one percent of the state's total enrollment. Data were provided for five of the nonparticipating districts which were published in the 1970-71 report. These districts are Round Valley #10; Duncan Elementary #2; Keams Canyon #25; Santa Cruz High #840 and Lochiel #9. No information is available for these districts: Window Rock #8 and Liberty #25, in the pupil and non-certified employees survey. However, there is 1971-72 information available for Window Rock #8 and Liberty #25 Districts in the certified employees survey.

DEFINITIONS

Six racial and ethnic categories were identified as (1) Spanish surname; (2) Other white; (3) Negro; (4) Oriental; (5) American Indian; (6) Other nonwhite; and utilized in categorizing pupils as well as certified and non-certified employees.

Noncertified employees included those persons who were not required to obtain teaching or administrative certificates.

DATA PUBLISHED AND UNPUBLISHED

This report of the racial and ethnic distribution of pupils and employees presents two sections including the following data for these survey categories:

(A) Pupils: state summary, county summaries and totals of districts within each county

(B) Employees - Certified and Noncertified: state summary, county summaries and totals of districts within each county

The distribution of pupils and employees of individual districts is not presented.

Please contact the Equal Educational Opportunities Division, Arizona Department of Education, Phoenix, Arizona 85007, for information concerning the pupils and noncertified employees data of individual districts.

Please contact the Planning and Evaluation Division, Arizona State Department of Education, Phoenix, Arizona 85007, for information concerning the certified employees of individual districts.

Acknowledgments

The Equal Educational Opportunities Division appreciates the excellent cooperation and support received from county school superintendents, local school district superintendents and administrators, teachers and other staff members who enabled our division to complete this survey.

Special thanks are given to the Planning and Evaluation Division, Arizona State Department of Education. It supplied information of the certified personnel which is presented in this report.

We believe that this second statewide racial and ethnic survey of public school pupils and employees will increase equal educational opportunities in all areas of educational endeavor.
